Uniconf®

In 1966, the Red October chocolate factory developed a delicious recipe for natural milk chocolate. The product was named "Alionka" in honor of millions of little girls who loved chocolate so much. Fifty years later, the recipe for this milk chocolate remains unchanged. The iconic image of little Alionka is still the same, and its distinctive design has become so popular that sales of «Alionka» products continue to rise in Russia and other markets.

«Alionka» unites generations - a brand loved by children, students, and adults alike.
